(1) The presentation of financial results on a proportionate basis is a non-IFRS measure used by the REIT to reflect its economic interest in equity-accounted joint ventures and subsidiaries by including the REIT's proportionate share of assets, liabilities, revenues, and expenses, where applicable. Following the internalization of Vital Trust and the resulting loss of control, Vital Trust is accounted for as an equity-accounted investment under IFRS. For purposes of the MD&A, the REIT's retained interest in public securities of Vital Trust is not proportionately consolidated and is instead presented as a standalone investment. Refer to Section 11, "Non-GAAP and Other Supplementary Measures" of the REIT's MD&A for the three and nine months ended September 30, 2026 for further details.

(2) FFO and AFFO are non-IFRS measures. Refer to Section 11, "Non-GAAP and Other Supplementary Measures" of the REIT's MD&A for the three and nine months ended September 30, 2026 for further details.
